

# Bright Bediako

---

Sekondi-Takoradi, Ghana | <https://brightbediako.netlify.app/> | [bright.bediako.dev@gmail.com](mailto:bright.bediako.dev@gmail.com)

## Objective

Passionate Full-stack Developer and technology enthusiast with a strong work ethic and a commitment to quality. Possessing clear, logical thinking and practical problem-solving skills, I strive to achieve the successful completion of every task. My academic and professional background in Business Information Technology has provided me with the skills necessary for web development, database design, and information systems analysis.

Specializing in technologies such as PHP, MySQL, HTML5, CSS3, JavaScript, and the MERN Stack, I enjoy building innovative solutions. I bring a combination of technical expertise and a results-driven mindset to create high-quality applications that meet the needs of users.

## Education & Certification

- Certificate | 2013 - 2016 | West African Examination Council, Ghana
- Certificate | 2018 | IPMC, Ghana
- Advanced Diploma in Business Information Technology | 2019 - 2021 | National Computing Center, UK
- AWS Certified Cloud Practitioner | April, 2024 - May, 2024 | Amazon Web Services

## Experience

### WEB DEVELOPER (INTERN) | CODSOFT | OCTOBER - NOVEMBER 2023

- Developed a robust blogging platform using HTML, CSS, and JavaScript for the Frontend, with PHP and MySQL for the Backend.
- Engineered a Project Management Tool using React.js for the Frontend and MongoDB, Express, and Node.js for the Backend.

### ICT TUTOR (NATIONAL SERVICE) | ESSIPUN TECHNICAL INSTITUTE | OCT. 2021 - SEP. 2022

- Planned and delivered ICT lessons appropriate for students' skill levels.
- Led class activities and provided feedback on students' work and ICT progress.

### WEB DEVELOPER (INTERN) | KAKAP.3 | OCT. 2021 - JUL. 2022

- Worked with the web development team to build products using HTML, CSS, and JavaScript.

## Projects

### BLOGGING WEBSITE | HTML, CSS, JAVASCRIPT, PHP, MYSQL

- Developed a robust blogging platform using HTML, CSS, and JavaScript for the Frontend, with PHP and MySQL for the Backend.
- This is a comprehensive web development project aiming to construct a feature-rich blog website. It showcases proficiency in web technologies, illustrating a practical understanding of crafting dynamic and interactive web applications.
- Key features encompass post creation, listing, user authentication, search functionality, and a commenting system.

### PROJECT MANAGEMENT TOOL | MONGODB, EXPRESS, REACTJS, NODEJS

- Engineered a Project Management Tool using React.js for the Frontend and MongoDB, Express, and Node.js for the Backend.
- Key features include user authentication, dynamic project tracking, and task assignment with progress monitoring
